**R**AV BARIACH was established in 1973 and has been a leader in the door-manufacturing field ever since. The company and its leading brand "PLADELET" have become synonymous with security doors. RAV BARIACH'S stellar reputation is a result of its top quality products, creative thinking, uncompromised quality and millions of satisfied customers in Israel and abroad.

In 1976, RAV BARIACH introduced the first steel security door manufactured in its factory. While a novelty in the area of front doors at the time, its strength and durability are the time-tested standard of every door. Today, every steel door comes with a geometric lock, meets international standards and their design is continuously evolving to suit our customers' changing needs.

## Our line of security products includes:

### • High Security Doors

The most advanced steel door in the world, which incorporates all the latest technologies making it the best and most improved security system for residential and commercial entrances.

### • Decorative Doors

Rav Bariach offers a large selection of decorative security doors, in variety of colors and finishes. All our doors are designed by Rav Bariach to suit a wide-range of tastes, and are adjustable to accommodate any of our clients' preferences.

### • Fire-Proof Doors

Rav Bariach's fire resistant door is designed for installation in stairways, passageways, schools, educational institutions, electricity rooms, generator rooms, flammable material warehouse and any other location that requires of fire resistant protection. Available in both single and double leaf versions and supplied in construction frame only.

### • Bullet-Proof Doors

For more than 10 years, Rav Bariach has been providing bulletproof doors for Israeli institutions, consulates and embassies.
